## MIGHTY<sub>200</sub>

### Features

- ▶ 60,000 lb. hoist capacity
- ▶ Lightweight (12,600 lbs.)
- ▶ Two (2) telescoping lift cylinders provide greater stability
- ▶ Handles containers up to 26' long (OR and IO models) or 24' (EX models)
- ▶ Shorter overall length for greater maneuverability
- ▶ Lower trailer height accommodates tall containers

**Available Models:**  
Deadlift (HH)  
Extendable Tail (EX)  
Inside/Outside Rail (IO)  
Outside Rail (OR)

\*EX model shown with following options: aluminum diamond plate fenders, aluminum rims and premium red paint. Standard has black paint, quarter poly rear fenders and steel rims.

### Options

- ▶ Tarping systems
- ▶ Mounted oil tank
- ▶ Auto air inflation system
- ▶ Rear wing plate
- ▶ Aluminum wheels
- ▶ Toolbox
- ▶ Air ride suspension
- ▶ Outside-supported rollers
- ▶ Auto grease system
- ▶ Tire carrier

"Plug n' Play" wiring system eliminates crossed wires, loose connections, corrosion and splices; allows for simple light replacement.

Automatic front container spring-loaded locking system and rear container hold-downs help ensure container remains in place.

The hoist-up alarm is a standard safety feature. When hoist is engaged, alarm will sound, warning of hoist and container movement.

All trailer hoists have a safety prop to add extra security when the hoist is in the up position. 4 rollers per side help aid the container as it is loaded or unloaded on the hoist. Each roller is equipped with a bearing and a grease fitting for easy rolling and maintenance.

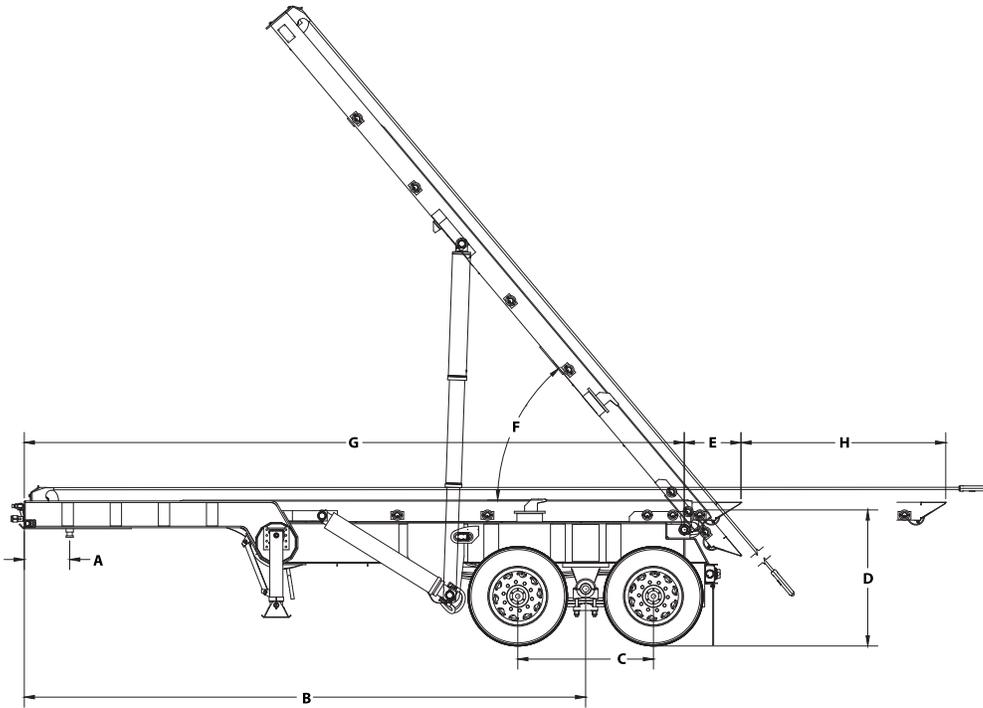

2 cylinders are mounted on the outside of the rails to provide stability when loading heavy boxes.

Optional full aluminum diamond plate fenders shown. Quarter poly rear fenders are standard.
